RIGHT PEOPLE...

You need the RIGHT PEOPLE.

At Radius, our recruiters are specialists in their disciplines. Accounting & Finance. Engineering. IT. Scientific. As experts, we know the right questions to ask. And we know what answers to expect. Using a combination of behavioral interviewing, skills assessment, and reference checking, we make certain that every candidate we refer is well qualified for your specific hiring need.

RIGHT NOW.

You need them RIGHT NOW.

To help you find talent faster, Radius Staffing has developed a unique service delivery model that combines Regional Recruiting Centers with local field offices. Our Recruiting Centers focus exclusively on candidate sourcing for each of our core disciplines while our field offices provide personal service to our clients and candidates.

By centralizing specialized recruiting, Radius Staffing is able to quickly locate hard-to-find candidates for your position. Whether your need is contract-to-direct, or direct hire, Radius is the solution.

Quality....Not Quantity

Is sorting through a high volume of generally unqualified or poorly matched resumes how you want your internal staff to spend their time? Using RADIUS Staffing can give them the time to focus on your core business.

We take the time to thoroughly understand your company, and your requirements. We know that the job title and description are just the beginning of the process. To provide an appropriate solution, we first have to fully understand your challenge.

Once our focused approach identifies a number of appropriate candidates, they are fully screened. Only the most qualified are recommended for your consideration.

Call Radius Staffing today!
